Subject Re: GE Powerex Investigation - Auburn, NY

Steve,

Contrary to what you may have heard, the Remedial Investigation (RI) report is still being worked on and its release is not imminent. The Feasibility Study is still in development and is not close to being finalized. I anticipate that the RI will be finalized and released sometime this summer. I will contact you when the RI is ready for release. I will ensure that two copies will be available for you upon the report's release. If there are any charges for the reports, we can handle that like we have in the past, i.e. I can release the reports with your assurance of payment and we can let the FOIA paperwork catch up later.

Subject GE Powerex Investigation - Auburn, NY

I have learned that EPA is about to release the Remedial Investigation Feasibility Study Report for GE at Auburn. I would like to obtain two copies of the report and accompanying data. Can you tell me the best way to go about obtaining the same? Thank you.
